### School Vision

At St John's we recognise that children's formative years are crucial for their future development and well-being. We aim to develop an enjoyment of learning through creative and real life experiences. We endeavour to expand children's imagination and promote an environment of motivation, curiosity and challenge. By embracing these new challenges and becoming independent learners, children will be able to reach their full potential in all areas of the curriculum. Central to our Christian ethos and values is development of the children's spiritual awareness, their knowledge of Christianity and other faiths, and their respect for others. We educate children on becoming good citizens through our values education.
